

Surfer Bather

The Mangar Surfer Bather Bath Lift will make bath time fun again for those parents and carers who struggle to lift a child into and out of the bath.

Operated by an air compressor and battery powered, the Surfer Bather provides a steady and stable ride for the child. It minimises moving & handling risks to parents and caregivers. Importantly the Surfer Bather supports the child securely in the seat both during the transfer into and out of the bath as well as during the bathing process itself.

It requires no installation so can be removed to allow other members of the household to use the bath. It also has an adjustable backrest which can also lie flat giving the child a range of positions to choose from for their individual comfort. Different headrests, harnesses and pommels are also all available.

- Lowers the child to the bottom of the bath
- Lightweight
- Simple to use
- Adjustable backrest and seat
- Fully waterproof hand control
- Comfortable padded seat

Optional Accessories

Horseshoe Headrest

A comfortable foam headrest to provide additional support to the side of the child's head. Suitable for use with both the Surfer Bather and Sub.

Pommel

A flexible positioning aid for use on the Surfer Bather, Sub and Therapy Wedge. The pommel is fixed to the product with Velcro so can be repositioned and removed as necessary.
